

IN THE CLAIMS

1. - 53. (Previously canceled)

54. (Cancelled herewith)

55. (Amended Herewith) A toner particle adapted for use in electrostatic image formation comprising:

a polymer; and

flakes of metal dispersed in the polymer.

[A toner particle according to claim 54] wherein the flakes of metal have a dimension greater than 4 micrometers.

56. (Originally filed) A toner particle according to claim 55 wherein the flakes of metal have a dimension greater than 4 micrometers.

57. (Amended Herewith) A toner particle according to [any of claims 54-56] claim 55 or claim 56, wherein the flakes comprise gold.

58. (Amended Herewith) A toner particle according to [any of claims 54-56] claim 55 or claim 56, wherein the flakes comprise silver.

59. - 60. Previously cancelled.

61. (Amended Herewith) A toner particle according to [any of claims 54-56] claim 55 or claim 56, wherein the polymer is a low molecular weight ionomer.

62. (Originally filed) A toner particle according to claim 57 wherein the polymer is a low molecular weight ionomer.

63. (Originally filed) A toner particle according to claim 58 wherein the polymer is a low molecular weight ionomer.

64. Previously cancelled.

65. (Amended Herewith) An electrified toner particle according to [any of claims 54-56] claim 55 or claim 56.

66. (Originally filed) An electrified toner particle according to claim 57.

67. (Originally filed) An electrified toner particle according to claim 58.

68. (Previously cancelled)

69. (Amended Herewith) A liquid toner comprising:
a plurality of toner particles according to [any of claims 54-56] claim 55 or claim 56; and
a carrier liquid.

70. (Originally filed) A liquid toner comprising:
a plurality of toner particles according to claim 57; and
a carrier liquid.

71. (Originally filed) A liquid toner comprising:
a plurality of toner particles according to claim 58; and
a carrier liquid.

72. (Previously cancelled)

73. (Originally filed) A printed image printed with a process utilizing a liquid toner according to claim 69.

74. (Originally filed) A printed image printed with a process utilizing a liquid toner according to claim 70.

75. (Originally filed) A printed image printed with a process utilizing a liquid toner according to claim 71.

76. (Previously cancelled)

77. (Amended Herewith) A mixture containing a plurality of toner particles according to [any of claims 54-56] claim 55 or claim 56, wherein the particles have a median particle size of between 8.2 and 18.6 microns.

78. (Previously added) A mixture containing a plurality of toner particles according to claim 57 wherein the particles have a median particle size of between 8.2 and 18.6 microns.

79. (Previously added) A mixture containing a plurality of toner particles according to claim 58 wherein the particles have a median particle size of between 8.2 and 18.6 microns.

80. (Previously added) A liquid toner according to claim 69 wherein the particles have a median particle size of between 8.2 and 18.6 microns.

81. (Previously added) A liquid toner according to claim 70 wherein the particles have a median particle size of between 8.2 and 18.6 microns.

82. (Previously added) A liquid toner according to claim 71 wherein the particles have a median particle size of between 8.2 and 18.6 microns.
